

EVAN PARNELL

VP, OPERATIONAL EXCELLENCE | FIELD SERVICES

Driving field productivity, margin discipline, and scalable operating systems

Annapolis, Maryland | (443) 294-5481 | efparnell@gmail.com | [LinkedIn](#)

EXECUTIVE PROFILE

Operations executive with 15+ years leading technical, regulated, and field-service organizations across multi-site environments. Builds scalable operating systems that improve field execution, labor productivity, cost visibility, accountability, and customer responsiveness.

Experience includes direct dispatch, scheduling, utilization, quoted-work execution, and job-level cost awareness in a five-technician, three-vehicle field-service operation; management systems across eight locations, a \$10M operating budget, and more than 300 employees; national pricing operations; and regulated facility launches.

Hands-on, data-driven leader who works across technical, commercial, service, and executive teams. Known for diagnosing margin and execution constraints, building repeatable systems, developing managers, and using technology and performance measures to turn operational complexity into measurable improvement.

CORE COMPETENCIES

Leadership	Strategy	Systems
Field Service Operations	Margin & Productivity	Operating System Design
Technician Dispatch	Multi-Site Standardization	Job Costing & KPIs
Leadership Development	Cross-Business Execution	Technology Enablement
Facility & Project Delivery	Change & Integration	Operational Analytics

PROFESSIONAL EXPERIENCE

Co-Founder & Chief Operating Officer

GivMoo, LLC 2025–Present

Co-founded and built the operating foundation for an e-commerce platform, translating a new business model into governance, accountable workflows, supplier operations, and scalable execution.

- **Built governance, operating cadence, and accountability** that moved the organization from concept toward market execution.

EVAN PARNELL

- **Aligned supplier operations, nonprofit impact, and commercial priorities** within a unified operating model.
- **Standardized core workflows** and replaced person-dependent execution with repeatable systems designed for growth.

Director of Business Analytics

Stellar Scientific, LLC 2025–Present

Re-engineered commercial operations for a national scientific distributor, replacing a manual annual pricing process with a scalable platform for continuous execution across supplier, customer, contract, and e-commerce channels.

- **Built an enterprise operating platform** supporting continuous pricing management, commercial consistency, and improved margin visibility.
- **Mapped supplier relationships, customer rules, pricing logic, and operational dependencies** into a documented operating architecture.
- **Integrated hundreds of supplier catalogs**, distributor pricing models, customer contracts, and e-commerce channels within one execution framework.
- **Automated business rules and workflows** to improve pricing consistency, execution speed, reporting, and decision quality.

Associate Laboratory Director

Green Analytics MD, LLC | 2021–2026

Built the management systems, business processes, and leadership infrastructure supporting consistent execution across eight locations, a \$10M operating budget, and more than 300 employees.

- **Standardized business processes, governance, and management systems** across a decentralized multi-site operation.
- **Extended operational discipline beyond technical accreditation** by designing the administrative systems required to run the enterprise.
- **Coached managers to think proactively**, solve operating problems, and strengthen accountability across their teams.
- **Created organizational procedures**, competency-based career architecture, workforce-development systems, and repeatable operating routines.

EVAN PARNELL

Co-Founder & Managing Partner

Atlas Labs FL, LLC | 2019–2021

Co-founded a greenfield analytical laboratory, directing financing, facility construction, technical infrastructure, procurement, regulatory readiness, and launch.

- **Directed a \$1M+ facility development program** from site and financing decisions through construction, equipment installation, and validation.
- **Built the technical and operating infrastructure** required for ISO 17025 accreditation, DEA registration, and launch readiness.
- **Integrated construction, regulatory, financial, scientific, vendor, and operational workstreams** into one execution plan.

Technical Manager | Quality Manager

Atlantic Test Labs, Inc. | 2017–2019

Led the technical and operational launch of a regulated analytical laboratory, aligning quality systems, personnel, equipment, workflow, and commercial execution.

- **Implemented the ISO 17025 quality management system**, method-validation program, documentation, and regulatory-readiness processes.
- **Directed equipment selection, workflow design, personnel training, documentation, and operational-system development** through commercial launch.
- **Improved operating efficiency, compliance, customer responsiveness, and organizational performance** during rapid growth.
- **Helped restore operating momentum** during a leadership transition, contributing to a 30% increase in sales and a 40% reduction in operating costs in four months.

Field Service Technician → Technical Manager → Quality Manager

Atlantic Technical Services, Inc. | 2012–2017

Advanced from field service technician to technical and quality leadership in a five-technician, three-vehicle controlled-environment service operation, directly managing dispatch, scheduling, job execution, quality, and technician development.

- **Managed dispatch, workload balancing, and daily field execution** for five technicians across three service vehicles.
- **Tracked technician utilization, labor and material inputs, quoted scope, and job progress** to support margin discipline and customer responsiveness.

EVAN PARNELL

- **Re-engineered operating systems** after an unsuccessful audit, implementing ISO 9001 and rebuilding procedural infrastructure.
- **Modernized service operations** through cloud collaboration, workflow automation, electronic reporting, and digital document management.

Able Seaman / Deckhand

Dann Marine Towing | 2010–2012

Operated and maintained mission-critical marine equipment aboard a 100-foot tug supporting continuous towing operations across offshore and inland waterways.

- **Executed high-consequence operations** in severe weather and complex waterways where preparation, teamwork, and disciplined processes were essential.
- **Improved vessel operations** through electronic-navigation integration, workspace redesign, maintenance, and technical troubleshooting.

Surface Warfare Officer (Division Officer)

United States Navy | 2008–2010

Led personnel and operations as a Surface Warfare Officer aboard USS McFaul (DDG-74), developing an early foundation in accountability, disciplined execution, and leadership within complex, high-tempo environments.

Bachelor of Science, Chemistry

United States Naval Academy | 2004–2008

Bachelor of Science in Chemistry with intensive preparation in leadership, military operations, engineering-based problem solving, and commissioned naval service.
